Brand new shikigami SP Nightveil Higanbana has arrived

Nightveil Higanbana is a spirit who lives in the Sanzu River, disguised as a ferryman. The prayers and obsessions of the souls who crossed the river constructed her form and soul, and the lost souls became her flower foam. With this, a sea of flowers as bright as fire paves a Path of Flames. However, Enma, the Lady of the Underworld, could not allow this mere bonsai to continue to grow widely, so she set fire to the sea of flowers. Although the blazing fire burned up Higanbana's flowers and leaves, it could not cut off the souls' obsessions. The slumbering Higanbana still carries away the souls away by fulfilling their wishes, and is blooming again on their dry bones. Her original and most loyal servant, Odokuro, will surely watch over Higanbana and continue to listen to the souls' obsessions.

This shikigami possesses three basic skills:

[Fallen Flower] Casts a red spider lily at the target, dealing damage equal to 100% of her ATK.

[Withering Blooms] Loses 40% of her current HP to cast 6 Nether Seeds at all enemies, prioritizing targets with fewer Nether Seeds, then she becomes Dormant. At the start of her turn, if she's Dormant, she collects all the Nether Seeds (maxed at 3 stacks collected) and gains an equal amount of Nether Flowers. Then she leaves Dormant.

[Doom to Underworld] Orders Odokuro to wield his blade and attack all enemies.
