## First Quarter 2026 Financial Results

### Net Revenues

Net revenues for the first quarter of 2026 were RMB30.6 billion (US\$4.4 billion), compared with RMB27.5 billion and RMB28.8 billion for the preceding quarter and the same quarter of 2025, respectively.

Net revenues from games and related value-added services were RMB25.7 billion (US\$3.7 billion) for the first quarter of 2026, compared with RMB22.0 billion and RMB24.0 billion for the preceding quarter and the same quarter of 2025, respectively. Net revenues from the operation of online games accounted for approximately 97.5% of the segment’s net revenues for the first quarter of 2026, compared with 96.8% and 97.5% for the preceding quarter and the same quarter of 2025, respectively. The quarter-over-quarter and year-over-year increases were attributable to higher net revenues from self-developed games, such as the *Fantasy Westward Journey* franchise and *Where Winds Meet*.

Net revenues from Youdao were RMB1.3 billion (US\$195.4 million) for the first quarter of 2026, compared with RMB1.6 billion and RMB1.3 billion for the preceding quarter and the same quarter of 2025, respectively. The quarter-over-quarter decrease was mainly due to decreased net revenues from its learning services and smart devices.

Net revenues from NetEase Cloud Music were RMB2.0 billion (US\$287.2 million) for the first quarter of 2026, compared with RMB2.0 billion and RMB1.9 billion for the preceding quarter and the same quarter of 2025, respectively.

Net revenues from innovative businesses and others were RMB1.5 billion (US\$224.6 million) for the first quarter of 2026, compared with RMB2.0 billion and RMB1.6 billion for the preceding quarter and the same quarter of 2025, respectively. The quarter-over-quarter decrease was led by decreased net revenues from e-commerce and advertising businesses.

#### Cost of Revenues

Cost of revenues for the first quarter of 2026 was RMB9.4 billion (US\$1.4 billion), compared with RMB9.9 billion and RMB10.3 billion for the preceding quarter and the same quarter of 2025, respectively. The quarter-over-quarter decrease was mainly due to lower product costs. The year-over-year decrease was mainly due to lower revenue-sharing costs related to platforms.

#### Gross Profit

Gross profit for the first quarter of 2026 was RMB21.2 billion (US\$3.1 billion), compared with RMB17.7 billion and RMB18.5 billion for the preceding quarter and the same quarter of 2025, respectively.

#### Operating Expenses

Total operating expenses for the first quarter of 2026 were RMB8.6 billion (US\$1.2 billion), compared with RMB9.4 billion and RMB8.0 billion for the preceding quarter and the same quarter of 2025, respectively. The variances in both the quarter-over-quarter and year-over-year results were primarily attributable to fluctuations in marketing expenses and general and administrative expenses.

#### Other Income/(Expenses)

Other income/(expenses) consisted of investment income/(loss), interest income, net exchange gains/(losses) and others. The quarter-over-quarter increase was mainly attributable to the gain from the disposal of certain long-term investments and lower investment impairment provisions in the first quarter of 2026. The year-over-year decrease was primarily due to fair value changes of equity security investments and higher foreign exchange losses recognized in the first quarter of 2026.

## Income Tax

The Company recorded a net income tax charge of RMB2.5 billion (US\$365.9 million) for the first quarter of 2026, compared with RMB1.3 billion and RMB1.9 billion for the preceding quarter and the same quarter of 2025, respectively. The effective tax rate for the first quarter of 2026 was 18.9%, compared with 16.4% and 15.3% for the preceding quarter and the same quarter of 2025, respectively. The effective tax rate represents certain estimates by the Company as to the tax obligations and benefits applicable to it in each quarter.

## Net Income and Non-GAAP Net Income

Net income attributable to the Company's shareholders totaled RMB10.7 billion (US\$1.5 billion) for the first quarter of 2026, compared with RMB6.2 billion and RMB10.3 billion for the preceding quarter and the same quarter of 2025, respectively.

Basic net income was US\$0.48 per share (US\$2.42 per ADS) for the first quarter of 2026, compared with US\$0.28 per share (US\$1.42 per ADS) and US\$0.47 per share (US\$2.35 per ADS) for the preceding quarter and the same quarter of 2025, respectively.

Non-GAAP net income attributable to the Company's shareholders totaled RMB11.3 billion (US\$1.6 billion) for the first quarter of 2026, compared with RMB7.1 billion and RMB11.2 billion for the preceding quarter and the same quarter of 2025, respectively.

As of March 31, 2026, the Company's net cash (total cash and cash equivalents, current and non-current time deposits and restricted cash, as well as short-term investments balance, minus short-term and long-term loans) totaled RMB167.5 billion (US\$24.3 billion), compared with RMB163.5 billion as of December 31, 2025. Net cash provided by operating activities was RMB13.7 billion (US\$2.0 billion) for the first quarter of 2026, compared with RMB14.8 billion and RMB12.1 billion for the preceding quarter and the first quarter of 2025, respectively.

Under the Company's current dividend policy, the determination to make dividend distributions and the amount of such distribution in any particular quarter will be made at the discretion of its board of directors and will be based upon the Company's operations and earnings, cash flow, financial condition and other relevant factors.

## **Forward Looking Statements**

This announcement contains statements of a forward-looking nature. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify these forward-looking statements by terminology such as “will,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates” and similar expressions. In addition, statements that are not historical facts, including statements about NetEase’s strategies and business plans, its expectations regarding the growth of its business and its revenue and the quotations from management in this announcement are or contain forward-looking statements. NetEase may also make forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the “SEC”), in announcements made on the website of The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”), in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. The accuracy of these statements may be impacted by a number of business risks and uncertainties that could cause actual results to differ materially from those projected or anticipated, including risks related to: the risk that the online games market will not continue to grow or that NetEase will not be able to maintain its position in that market in China or globally; risks associated with NetEase’s business and operating strategies and its ability to implement such strategies; NetEase’s ability to develop and manage its operations and business; competition for, among other things, capital, technology and skilled personnel; potential changes in regulatory environment in the markets where NetEase operates; the risk that NetEase may not be able to continuously develop new and creative online services or that NetEase will not be able to set, or follow in a timely manner, trends in the market; risks related to evolving economic cycles and geopolitical tensions, including the direct or indirect impacts of national trade, investment, protectionist, tax or other laws or policies as well as export controls and economic or trade sanctions; risks related to the expansion of NetEase’s businesses and operations internationally; risks associated with cybersecurity threats or incidents; and fluctuations in foreign currency exchange rates that could adversely affect NetEase's business and financial results. Further information regarding these and other risks is included in NetEase’s filings with the SEC and announcements on the website of the Hong Kong Stock Exchange. NetEase does not undertake any obligation to update this forward-looking information, except as required under applicable law.

## **Non-GAAP Financial Measures**

NetEase considers and uses non-GAAP financial measures, such as non-GAAP net income attributable to the Company's shareholders and non-GAAP basic and diluted net income per ADS and per share, as supplemental metrics in reviewing and assessing its operating performance and formulating its business plan. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

NetEase defines non-GAAP net income attributable to the Company's shareholders as net income attributable to the Company's shareholders excluding share-based compensation expenses. Non-GAAP net income attributable to the Company's shareholders enables NetEase's management to assess its operating results without considering the impact of share-based compensation expenses. NetEase believes that this non-GAAP financial measure provides useful information to investors in understanding and evaluating the Company's current operating performance and prospects in the same manner as management does, if they so choose. NetEase also believes that the use of this non-GAAP financial measure facilitates investors' assessment of its operating performance.

Non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. Non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP net income attributable to the Company's shareholders is that it does not reflect all items of expense/ income that affect our operations. Share-based compensation expenses have been and may continue to be incurred in NetEase's business and are not reflected in the presentation of non-GAAP net income attributable to the Company's shareholders. In addition, the non-GAAP financial measures NetEase uses may differ from the non-GAAP measures used by other companies, including peer companies, and therefore their comparability may be limited.

NetEase compensates for these limitations by reconciling non-GAAP net income attributable to the Company's shareholders to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company's performance. See the unaudited reconciliation of GAAP and non-GAAP results at the end of this announcement. NetEase encourages you to review its financial information in its entirety and not rely on a single financial measure.
