

Creating Entertainment Filled with DREAMS and EXCITEMENT

Napsack Studios Inc. enjoys full authority to manage and create the kinds of games that they are passionate about, with NetEase Games' support.

Angelo Studios Inc. enjoys full authority to manage and create the kinds of games that they are passionate about, with 'Netflix Games' support.

There have been sweeping changes made to how content is produced in the entertainment industry, in terms of how it's made and the business model that supports it. These changes are happening at a greater speed, thanks to the advances in technology and infrastructure. However, Netflix Games and Angelo Studios both believe that what people want from entertainment hasn't changed at all. People see their dreams in entertainment, they look to it to give them hope in their everyday life, to soothe them in difficult times, and to add excitement in happy times. People look to entertainment to provide the spark for all kinds of events in their life.

Angelo is once again fully able to harness the essence of entertainment with strong motivation to reach the whole world. Netflix Studios Inc. shares the same excitement with Netflix Games to "Unleash the Potential of Content" in an open and inclusive environment, hoping to reach and touch passionate gamers around the globe with high-quality and engaging content.

**Robert Naguchi Studio Inc.**
