

Sword of Justice is Now Available for PC and Mobile Devices

11/07/25

New free-to-play MMORPG set in 12th century China launches to 5M pre-registrations and with a code for Release Celebration Rewards: MMOKING

NetEase Games, the online games division of NetEase, Inc. (NASDAQ: NTESE, HKEX: 9999), and ZhuRong Studio have launched *Sword of Justice* worldwide for PC and mobile devices today, bringing the free-to-play fantasy MMORPG set in 12th century China to players around the globe. With its extensive open world, innovative progression system and an extremely advanced character creator including the option to upload a photo or describe a desired look in writing, *Sword of Justice* is a truly unique addition to the popular genre. Those who log in at launch earn huge rewards from the 5 million pre-registrations leading up to the big release and even more with the Release Celebration Code: MMOKING

Get Ready to Explore *Sword of Justice*'s Boundless Open World

From bustling cities to sprawling landscapes featuring massive mountains and majestic rivers, *Sword of Justice* features a living, breathing world. There are many ways to weave your story in *Sword of Justice*, thanks to rich social features for interacting with other players as well as thrilling quests and storylines to experience.

In this no-pay-to-win-MMO, character progression is purely gameplay-driven. Thanks to the innovative "Converging Paths" system, you'll find plenty of features fitting your playstyle - no matter if you're a casual adventurer or a grinding enthusiast.

NPCs in *Sword of Justice* are powered by a state-of-the-art AI engine that lets them remember you and respond in kind for example. These NPCs will surprise players at every turn with their interactions. Every choice you make shapes your story in this living world, letting you tell your very individual tale.

Log-in Now to Claim Launch Celebration Rewards

Those who log in to *Sword of Justice* on PC, Android, or iOS to celebrate its release will be able to claim the rewards unlocked by the 5 million players who pre-registered their interest in the game. These rewards include the Solitary Crane Outfit, Heaven Frost Mount, Stellar Skill Skin and more!

Besides that, players who complete all the Launch Celebration side missions, dungeons, and career activities will be able to earn a total of 38 outfits and 1,235 cosmetic items, all just by playing the game. These include costumes, mounts, accessories, toys, emotes, and more.

Enjoy Innovative Character Creation, Social Systems and More

Sword of Justice features over 300 adjustable parameters for designing your character, including facial contours and features, makeup, hairstyle, and body type. What's more, you don't need to set them yourself – just describe your character or upload a photo, and the game's Text generation or Snap & Generate will generate them for you!

While most traditional MMOs reinforce social bonds through team-based raids, Sword of Justice has redefined the social system of the genre by giving players the freedom to opt out of socializing entirely. The game introduces a "solo raid" mechanism, where the system automatically matches players with AI teammates based on their class and talents, allowing them to complete various dungeons alone.

Meanwhile, the game's "AI Film Crew Mode" offers an AI-driven content creation system for those who like to get creative. Players can generate video features for their characters by either uploading real-life videos or simply inputting text! To support this, the feature offers a variety of background templates and allows players to shoot scenes anywhere in the open world of Sword of Justice — or even build their own shooting sets in game! A dedicated in-game community platform, the "AI Film Crew Mode," is also included, where players can share their creations and get inspired by the work of others.

Sword of Justice is all about letting you experience epic adventures in an eastern world, with countless hours of content and now available for free on PC, Android and iOS.
