Free-to-Play Open-World Wuxia ARPG Where Winds Meet Launches Worldwide Today

11/14/25

Download now on PC and PlayStation®5 and embark on a grand, action-packed adventure through 10th century China

Everstone Studio and NetEase Games' highly anticipated open-world Wuxia action-adventure RPG *Where Winds Meet* will be available on Steam, PlayStation®5, Epic Games Store and the official website today. The game will have full cross-play and cross-progression support. As a free-to-play game, *Where Winds Meet* promises no pay-to-win mechanics to ensure a fair gameplay environment. Players can jump into the Wuxia world for Season 1: Blade Out, which will be live globally on **Nov 14th 2pm PST**.

Where Winds Meet Global Launch Trailer: https://www.youtube.com/watch?v=Al8yo6Pzvcg

Where Winds Meet is the world's first original Wuxia open-world ARPG that seamlessly blends Wuxia themes with open-world gameplay. Set in 10th-century China during the turbulent Five Dynasties and Ten Kingdoms period, the game invites players to step into the shoes of a wandering sword master forging their legendary path in a fractured world.

In celebration of the game's global launch and to thank their dedicated community, Everstone Studio is offering players who jump in at launch a wide variety of special rewards. Over 180 cosmetics including 80+ outfits, 100+ accessories, and a wide variety of emotes, decorations, and inscriptions will be available to players – all for free!

Where Winds Meet boasts a vast, intricately crafted open world filled with life, featuring over 20 distinct regions to explore. The game harmoniously integrates history with the imaginative essence of the Wuxia world. With more than 10,000 unique NPCs, each with their own personalities and responses, players can shape their interactions, turning characters into trusted allies or sworn enemies based on their choices.

The game offers players the opportunity to master over 40 unique Martial Mystic Arts and an arsenal of weapons, including Spears, Swords, Dual Blades, Glaive, Umbrella, and Fans, and unlock distinctive martial arts skills, including Acupuncture Hitting, Lion's Roar, Merciful Picking, and Tai Chi.

Choose to embark on a journey as a lone swordsman or team up with up to 4 others on your adventure, as players can immerse themselves in over 150 hours of rich, narratively driven exploration and adventure. Those looking to test their newly established skills on the battlefield can take part in PVP battles against other players.

Craft your own legend and weave your own destiny as Where Winds Meet lets players pick the job role that best suits them. Players can pick from the role of a doctor, merchant, assassin or bounty hunter. Decide the path you take, whether that’s good or evil, the choices to stay true to your original aspiration or throw it all away, all in the name of freedom and unbound adventure.

About Everstone Studio

Everstone is an emerging game production studio focusing on open world and ancient narrative. Gathering a group of energetic, pioneering gamers, the studio is driven by a passion for martial arts chivalry and experience in game narrative, combat performance, level design, and more.

The studio's vision is to employ international game production techniques to express the unique concept of oriental arts. With characters of certain historical backgrounds and martial arts elements, the team aspire to reconstruct the distant past with cutting-edge technologies and bountiful detail, so as to build deep connections with our players and create an impressive open world that fills them with wonder. Devoted to combining both real history and a huge world of both real and fantastic creatures, grand narrative and meticulous detail, Everstone Studio would like to use creative design in the growth of swordsmen to bring unprecedented flexibility and freedom to our players, letting them roam boundlessly in a finite world.
