

Once Human Sets August 25 Launch Date on PS5 and XBOX with New First-Person Perspective and Full Crossplay

07/10/26

Pre-orders open today with exclusive platform-specific reward packs!

NetEase Games and Starry Studio are thrilled to announce that their hit strange worlds survival title, Once Human will officially launch on PlayStation 5 and XBOX Series X|S **on August 25**, with a brand new First-Person Perspective feature and full support of cross-play and cross-progression right from launch.

Once Human release date reveal trailer: <https://youtu.be/YRa7L46q7IE>

Once Human is a free-to-play, Strange Worlds survival game set in a post-apocalyptic landscape. Players venture into different "Scenarios," each offering diversified environments and gameplay mechanics. With 6 Scenarios and a PVP Spin-off currently available, the game delivers over 300 hours of gameplay for console players from day one. In the game, anomalies are the center of the core gameplay loop- harness them to explore the Stardust-infected wasteland, automate your shelter, and mutate yourself for combat. From crafting to fighting, anomalies are your only means to survive.

Enhanced Immersion on Console: New First-Person Perspective and More

To maximize player immersion, the console version introduces various special features:

- **First-Person Perspective:** This new functionality gives players the complete freedom to switch between a third-person perspective and a first-person perspective at any time. Launching directly onto the console version, the new feature pairs perfectly with a large 4K screen to deliver a completely different and deeply immersive experience.
- **High-Fidelity Graphics:** The console version delivers high-definition graphics with a choice between Quality Mode (4K/60FPS) and Performance Mode (120FPS) for immersive, big-screen gaming.
- **Optimized Controller Experience:** The game also features a bespoke controller experience, offering distinct low-frequency rumbles for giant monsters, precise trigger resistance during boss battles, and elastic tactile feedback for loot drops.

Pre-Orders Begin with Exclusive Reward Packs

Pre-orders have officially begun across both PlayStation and XBOX platforms, featuring two distinct tiers of gift packages. Purchasing players will receive exclusive, limited pre-order items unique to the PlayStation and XBOX platforms respectively:

- **Starter Pack (\$9.99):** Offers the Black Gold Butterfly cradle skin, 3 Midnight Rave weapon skins, a 30-day METAPASS, a special home facility skin, and exclusive profile customization items.
- **Radiance Pack (\$14.99):** Provides an Outfit Selection including 3 character skins, a Premium Battle Pass, a 30-day METAPASS, 2 Siderite lottery tokens, and an exclusive avatar frame.
